WHY UZBEKISTAN?

Currently, Uzbekistan is confidently implementing large-scale reforms to promote and introduce of environmentally friendly technologies, equipment and services. It is especially important to note the comprehensive programs approved by the President of the Republic of Uzbekistan to develop a waste management system, further develop renewable energy, and increase energy efficiency in all sectors of the economy.

“Uzbekistan is ready to develop mutually beneficial, long-term and multifaceted partnerships with all countries of the world and global organisations,” Shavkat Mirziyoyev assured. “I am confident that we will continue to strengthen our close cooperation aimed at safe and sustainable development and building a prosperous future.”
